

EVOLUTIONARY HEALING
INSTITUTE

Amy Barrett, MS, CCC-SLP, UTP is a compassionate and experienced professional, who brings both personal experience and clinical knowledge to her work as a Unified Therapy™ Practitioner. Amy has undergone extensive training with Dr. Paul Canali at the Evolutionary Healing Institute and has been a practitioner of Unified Therapy™ since August, 2011.

She is also a licensed speech-language pathologist holding a certificate of clinical competence from the American Speech Language and Hearing Association. She obtained her Bachelor of Science degree in Communication Sciences and Disorders from the University of Georgia in 1998 and her Master of Science degree in Audiology and Speech Pathology from Florida State University in 2001.

Amy specializes in treating people with unresolved trauma/stress, anxiety, pain and various autoimmune disorders. She combines her clinical knowledge with Unified Therapy™ principles to create a secure and nurturing environment. She guides her clients to positively interact with a wide variety of emotions, as they experience new levels of understanding regarding their current condition.

As a speech pathologist, she feels a natural calling to provide a holistic model of wellness for her pediatric clients with disabilities, addressing the interplay of family history, emotional, social, and physical aspects of each individual, as well as the impact of medical related trauma on the child and family as a whole.

In addition to her work as a speech-language pathologist, Amy is an instructor at the Unified Therapy™ Healing Retreats & Workshops and a contributor to the Foundations of Unified Therapy™ program. She speaks at lectures with Dr. Canali, helping to increase understanding of the Bio-Psycho-Social model of therapy.
