

Unified Theory of Everything Human

The New Biopsychosocial Model of Disease and Suffering

Presented by Dr Paul Canali

Delve Deeper Within

Dr Paul Canali invites you to attend the Level 2 Healing Workshop!

Saturday, January 26, 2019

This workshop is not only for health practitioners, but healers, trainers and instructors from all disciplines. This day long workshop involves lecture, discussion, demonstrations and hands-on instruction.

Join us as we look deeper at the biopsychosocial components of healing and explore how self healing defines how we heal others, work with pain and the difficult emotions that keep us stuck in life.

It is not only important for ourselves and our healing journey as healthcare practitioners, healers and seekers, it is essential for working with deeper wounds, life traumas and issues that may be at the core of dis-ease.

"Embrace your Wounds, they will teach You to Love Yourself."

The Unified Theory of Everything Human is a comprehensive model of human evolution and development. It is becoming alarmingly clear that both physiological and psychological health and disease, whether we thrive or remain stuck in life and even our search for purpose, meaning and spiritual quests, has more to do with our early childhood environment than anyone could imagine.

How Do We Heal?

- There are stages or levels of the healing process that all humans must pass through to reach true healing and enlightenment.
- Healing requires learning inner somatic awareness.
- How we use our mind, our brain and how well we let go and surrender.
- Neuroplasticity – “flexible brain” able to grasp new information. Must disconnect from old patterns of thinking and negative biological entrainment.
- Freedom from past beliefs and attachments.

Instructors

Dr Paul J Canali:

Dr Canali has been involved in the study of the human condition for over 30 years. He was a pioneer in the biopsychosocial model of disease and suffering and the intergenerational effects of toxic stress and trauma; especially how toxic stress and trauma affect the brain and body. He is associated and accredited with pioneering somatic brain body therapies, including many terms that are often used today in the field of medicine and psychology, especially those related to autonomic nervous system regulation. Dr Canali is the founder of Unified Therapy™ and teaches its concepts and techniques to other healthcare professionals.

Barbara Lempereur, BS, UTP:

Before training with Dr. Canali in Unified Therapy™, Barbara was first a patient and these personal experiences have given her a rich insight into the healing experience firsthand. Barbara has a background in healing modalities and graduated February 2015, Magna Cum Laude from Kaplan University with a Bachelor of Science in Psychology with a concentration in Applied Behavioral Analysis.
