The Unified Theory of Everything Human is a comprehensive model of human evolution and development. It is becoming alarmingly clear that both physiological and psychological health and disease, whether we thrive or remain stuck in life and even our search for purpose, meaning and spiritual quests, has more to do with our early childhood environment than anyone could imagine.

Unified Theory is based on the discovery of an entirely new operating system that allows unprecedented communication into the brain, nervous system, the unconscious mind, implicit and explicit memory. Most importantly it holds the ecstasy of your own surrender, a peace and grace that will transcend all understanding.

This experiential day long workshop involves lecture, discussion, demonstrations and hands-on instruction.

In this workshop, you will learn:

- About the Autonomic Nervous System and how it relates to growth and healing.
- Avoid Burn Out Syndrome and Compassion Fatigue.
- Learn new breakthrough tools to boost your effectiveness and results in your practice.
- Help heal yourself to have more happiness and health in your own life.
- How to read the signs of ANS dysregulation and activate autonomic re-balancing and the Homeostatic Balancing Reflexes.

Please fill out the registration form and submit to the EHI Office by email (ehmiami@gmail.com) or by fax (305-661-2327). The workshop will be limited to a select 20 participants and Dr Paul will speak with you personally prior to the workshop.

Level 1 Workshop will be held at:
