

UNIFIED THEORY OF HEALING AND CONSCIOUSNESS

LEVEL 2 WEEKEND RETREAT

The New Biopsychosocial Model of Healing, Trauma, Anxiety and Chronic Pain

Join Dr Paul Canali and Jim Fazio for a weekend of lecture, discussion, demonstrations, and expanded hands-on instruction.

The Unified Theory of Healing and Consciousness is a comprehensive model of human evolution and development. It is becoming alarmingly clear that both physiological and psychological health and disease; whether we thrive or remain stuck in life, and even our search for purpose, meaning and spiritual quests, has more to do with our early childhood environment than anyone could imagine.

How Do We Heal?

- There are stages or levels of the healing process that all humans must pass through to reach true healing and enlightenment.
- Healing requires learning inner somatic awareness.
- How we use our mind, our brain and how well we let go and surrender.
- Neuroplasticity – “flexible brain” able to grasp new information. Must disconnect from old patterns of thinking and negative biological entrainment.
- Freedom from past beliefs and attachments.

Delve Deeper Within – Unlock Your Potential
